

Remarks

Applicants wish to thank the Examiner for finding claims 27-52 as allowable subject matter. Applicants have amended claims 31 and 32 to more clearly define the invention. No new matter has been introduced.

In view of the foregoing amendments and the following remarks, reconsideration of the present patent application is respectfully requested.

Claim objection

Claims 31 and 32 are objected to by the Examiner because of the following informalities: in claim 31 and 32, lines 1-2, "acid sensitive agent" should be changed to "serotonergic compound-so as to be consistent with the language of claim 30. Applicants have amended claims 31 and 32 in accordance with the Examiner's recommendation and respectfully request that the objection with respect to claims 31 and 32 be withdrawn.

In view of the remarks and the amendments, further and favorable consideration of the present application and the allowance of all pending claims are respectfully requested. The Examiner is also invited to contact the undersigned should the Examiner believe that such contact would expedite prosecution of the present application.
